- **Memory space for 6 additional folds**
- **Stop after the preselected volume**
- **Folding of single sheets and sheet sets**

trendFOLD

ideal for office, agency, EDP and mail handling department

With trendFOLD, folding has become a minor matter. The machine is set automatically by simply pushing a button. Special know-how is no longer needed.

The most frequent folds are pre-programmed:

Other folds can be set and saved at the push of a button.

With trendFOLD, you always get the correct volume. The machine stops automatically after reaching the preselected number of sheets.

Single sheets but also stapled or loose sets of up to 3 sheets can be folded without having to change settings.

Place paper on feed tray
Pick your fold
Push the start button

Paper sizes:
max. 21.5 x 35.5 cm
min. 14.6 x 15.2 cm
